D. Hechinger, nominally Hechinger & Co, are going to redire from business—In plain words are going to sell out.

Fortunately for the people, this step was not contemplated until after their entire spring stock (not less than \$40,000) had been purchased and placed in their house.

It is needless to say a word about the class of goods that will be thrown on the makede. It is a patent fact, not only to our midst but in the commercial world, that few merchants buy the uniformly high class of goods that Hechinger & Co, have always bought.

Our retirement sale will begin april 1st. It will take as multi then to arrange our stock for the sale. Every article in the house will be sold at net cost, no more hor less.

If scientists are to be believed, the telephone is a constant mentore to the public health and the abode of grippe germs. This is what Dr. E. John Kauffmann, of 50 West Thirty-third street, New York city, said:
"More causes of grippe have been according to the cite phone, to be contracted by the next user of the instrument, than have proceeded from all other sources combined."

In what is, "as to the causes of the recent epidemic of grippe, which has not yet speal its force. Together with can of the leading bacteriologists of the city, I visited several of the finest telephone exclinages. In many the clean cotton on a piece of wire and rubbed it around the inside of the mouthpiece of the telephone receiver. I made a lot of these exhibits, plincing each one in a small bottle and care-lean cotton on a piece of wire and rubbed it around the inside of the mouthpiece of the telephone receiver. I made a lot of these exhibits, plincing each one in a small bottle and care-loring on the cotton but the scraping from the receivers. Then the cotton balls were taken in hand by the bacteri-lougist. The result was we found a mutitude of the grippe lacility as these in New York, and I fligure that there lave been from 35,000 to 40,000 cases of grippe. I will tell you why there has to been more contagion from this source. If does not follow that every-one that uses the telephone is suscepti-one that uses the telephone is suscepti-or all diseases proceeding from grans.
